## EXPERIENCE

### Systems Analyst

#### Technocom Systems Sdn Bhd

05/2025 - Present Malaysia

Manufacturing

- Developed a new staff claim portal for all staffs and maintain the internal contract management system to support Legal, the external contract management system to support Finance, and Intranet websites for other staffs.
- Maintained and enhanced five existing internal websites, improving usability and reliability for internal users.

### Freelance Web Developer

#### Lin Min Thu Co.Ltd

08/2024 - 09/2024 Myanmar

Pharmaceutical

- Achieved a 70% increase in user engagement by delivering a fast information website with Next.js and Contentful CMS.

### Intern (Web Developer)

#### Singapore Organization of Seamen

03/2024 - 07/2024 Singapore

Maritime Services & Seafarer Welfare

- Digitized the Performance Management Appraisal System (PMAS), replacing manual paperwork with an automated workflow that reduced processing time, minimized human error, and improved appraisal transparency and accountability.
- Improved a secure, modern member portal enabling members' benefit claims, eliminating manual submissions and streamlining administrative operations (ASP.NET Core, jQuery, Tailwind CSS, AES-256 encryption).

### Freelance Web Developer

#### The Moment Studio

08/2022 - 07/2023 Myanmar

Graphic Design Studio

- Enhanced user engagement by 50% by developing a responsive website using Next.js and Tailwind CSS (<https://themomentstudiomm.co>).

### Intern (Test Automation Engineer)

#### Brillar Co.Ltd

04/2022 - 08/2022 Myanmar

Digital Transformation Solutions Provider

- Achieved a 95% quality standard by conducting thorough testing processes using Tosca on clients web applications.

### Intern (Software Developer)

#### RecyGlo Co.Ltd

08/2020 - 11/2020 Myanmar

Sustainability Technology

- Built a crowdfunding platform using Laravel, Vue.js, and Tailwind CSS.
- Integrated navigation and map services into an in-house mobile application built with React Native.

## EDUCATION

### Post Graduate Diploma in Systems Analysis (G. Dip.SA)

#### National University of Singapore

01/2023 - 12/2024

## SUMMARY

I am a dedicated Software Developer with a background in web development and systems analysis. I build scalable applications using **Laravel, ASP.NET Core, and Java Spring Boot**, with modern frontend frameworks such as **Vue.js, React.js, and Next.js**. I have experience designing responsive interfaces with **Tailwind CSS** and working with **PostgreSQL, MySQL, and Microsoft SQL Server**, and I enjoy delivering solutions that improve efficiency and create real impact.
